

July 2022

Full-Time, On-Site Position Available.

**Light Assembly, Testing Technician, and Semi-Skilled Shop Hand
with Auto Mechanics Background**

Ventech is looking for an individual to assist with light assembly, testing, and other shop responsibilities. Auto mechanics experience is highly desired.

Duties include assembly, inspection, and testing of mechanical and electrical components; assisting with creating, installing, and testing prototypes; and other shop and lab duties necessary to support and develop Ventech's creative and innovative products and projects.

The following experience and skills would be beneficial but are not required: automotive / Industrial machine wiring, reading schematics, using crimping tools, soldering, electrical harness assembly and testing, panel building, installation of engine accessories into vehicles, light assembly / short-run production. Ventech will provide training.

Applicants should be focused, detail-oriented, and have some automotive mechanics background. Punctuality and reliability are essential. A background that includes electronics experience is a plus. Veterans are encouraged to apply.

Wages are based on experience.

This position is on-site in Wixom, Michigan, and offers paid vacation, competitive compensation and benefits.

To apply, please send your resume to careers@ventechlhg.com.
