Full-Time, On-Site Position Available.

Machinist / Machine Builder - Experienced

Ventech, (also d.b.a. Puritan Automation, and Puritan Arctic Equipment) is a dynamic company focused on inventing, creating, and problem-solving.

We are currently looking for a talented and experienced machinist/machine builder to assemble and debug machines and equipment.

Applicants should have 5-10 years of experience with traditional machining: turning, milling, cutting, drilling ... and experience using traditional machine tools (non-CNC).

Duties include assembly, inspection, and testing of mechanical and electrical components; assisting with creating, installing, and testing prototypes; and other shop duties necessary to support and develop Ventech's creative and innovative products and projects.

Qualified applicants will be able to operate and maintain industrial machines, produce precision machine parts, collaborate closely with engineers, designers, managers, and other team members, interpret and follow technical drawings and instructions, always follow safety protocols, and check and verify that all produced equipment works correctly.

Applicants should be focused and detail-oriented. Punctuality and reliability are essential. A background that includes automotive, electronics, and / or welding experience is a plus. Veterans are encouraged to apply.

This position requires standing for extended periods of time, reaching with both hands and bending as necessary, and lifting up to 40 lbs. on a regular basis.

Wages are based on experience.

This position is on-site in Wixom, Michigan, and offers paid vacation, competitive compensation, and benefits.

To apply, please send your resume to careers@ventechlhg.com.
